Stitched Mandala -The collection 1 Day Version Homework Sheet My Sewing Room

For this 1-day class marking your chosen design onto your light-coloured fabric before class will have us stitching all day.

Please select either projects named Julie, Clarabelle, or Delora to stitch in class.

Tape the pattern sheets together for your chosen cushion.

Julie has one sheet only that you turn after marking one side to make a full circle.

Place pattern onto a table or light box and tape the fabric centred on top of the pattern.

Deb uses a 2B pencil but please use what you are comfortable with. No blue washout pens or Frixion pens please.

Please mark the cushion carefully and accurately.

For Julie no need to mark the horizontal lines for the blanket stitches or the flowers etc just the lines as on the right-hand side of the pattern. i.e., major straight lines only. Your machine settings may be different from the pattern.

Mark lightly but enough to see.

Bring to class and we will sandwich the cushion together with batting. The stabilizer will be used only if necessary.

I love working with 12 wt. threads and I am sure you will too. See you soon.
